EDUCATION

Bachelor of Science in Computer Science, Option in Business Information Systems

June 2027

Minor in Business Information Systems

Oregon State University, College of Engineering

Corvallis, Oregon

EXPERIENCE

Web Developer Intern, Impact Studio (*Oregon State University*)

2026 - Present

- Managed OSU Impact Studio's site and subdomains using Drupal, HTML, and CSS, increasing user traffic by 100%.
- Led full redesign of the website with a cross-disciplinary team, overhauling UX and content architecture.
- Configured and launched new faculty initiative subdomains end-to-end, improving site performance by 30%.

Vice President of Outreach, College of Engineering Student Council (*Oregon State University*)

June 2025 - Present

- Represented 10K+ engineering students to the COE faculty, providing insights on issues like the OSU tuition raise.
- Allocated \$200K+ in College of Engineering funds across 50+ student organisations.
- Oversaw planning and execution of 10+ events (E-Week, Club Fairs, Socials), driving 40% attendance growth.

LEADERSHIP

ASSOCIATIONS: Project Officer: Artificial Intelligence Club, Member: Association of Computing Machinery (ACM)

Co-Founder, Startup Hub (*Oregon State University*)

June 2025 - Present

- Founded an entrepreneurship community connecting 30+ aspiring founders through networking and investor meetings
- Partnered with the College of Business to provide entrepreneurship resources to 15k+ students across COE and COB
- Collaborating with Oregon Startup Center and AI Collective to build a startup pathway for 100+ OSU founders

Project Lead, Design for America (*Oregon State University*)

January 2026 - Present

- Leading an 11-member cross-functional team to design and develop a full-stack website for a local nonprofit.
- Collaborating with the Daytime Drop-in Center to translate 50+ requirements into technical specifications.
- Building a full-stack web app using WordPress, React, SQL, Tailwind CSS, and JavaScript for 300+ daily users.

Marketing, BeaverHacks (*Oregon State University*)

June 2025 - Present

- Led marketing strategy and content for Oregon's largest hackathon, driving attendance to 500+ participants.
- Managed and coordinated a volunteer team for day-of logistics, check-in, and event operations.
- Designed promotional materials and social media campaigns to maximise reach across OSU engineering community.

PROJECT & OUTSIDE EXPERIENCE

ER Overwatch (Hackathon, 1st Place) - (*Project Link:* <https://bit.ly/ER-Overwatch>)

- Built CV surveillance system for ER waiting rooms using a wide-angle camera stream to monitor patients for falls and deterioration; paired with rPPG vitals monitoring, achieving 88%+ BPM accuracy via MediaPipe Face Mesh + FFT
- Integrated Gemini API conversational intake assistant to interview patients and auto-generate clinical case files
- Deployed full-stack ER system with FastAPI backend, React nurse dashboard, Next.js patient PWA, OpenCV, MediaPipe, LiveKit WebRTC, Firebase Auth, React, Next.js, and FastAPI

ComboCraft (Hackathon, 1st Place) - (*Project link:* bit.ly/combocraft)

- Developed a browser-based computer vision combat game using HTML, CSS, JavaScript, MediaPipe, and scikit-learn.
- Built a gesture recognition pipeline with scikit-learn, achieving 95%+ classification accuracy and reducing misfires.
- Engineered 2,000+ lines of Canvas animations and combo logic, achieving smooth 60 FPS without external engines.

Sally's Coffee Shop POS System - (*Project Link:* bit.ly/sallysPOS)

- Built a full-stack POS web app using Node.js, Express, MySQL, and phpMyAdmin, with a 5-table relational database.
- Designed 8+ REST API endpoints supporting full CRUD for customers, orders, products, and inventory.
- Implemented 4 stored procedures for order placement, completion, cancellation, and inventory auto-adjustment.

SKILLS

LANGUAGES: Python, C++, JavaScript, TypeScript, SQL, MySQL, MariaDB, HTML/CSS, React, TailwindCSS, Dart

SKILLS: Node.js, Next.js, Express, REST APIs, Flutter, React Native, PyTorch, Pandas, OpenCV, Jupyter, NumPy, scikit-learn, Drupal, Git, Figma, Canva, WordPress, phpMyAdmin, Godot, Chrome Extensions API, Data Structures, Algorithms, Operating Systems, UI/UX Design, Marketing, Project Management, Leadership, Critical Thinking, Teamwork, Communication
